Don't Wait Till It Hurts!

YOUR DENTAL INSURANCE BENEFITS

INSURANCE POLICY:

Dental insurance benefits are an agreement between an employee (the patient) and their employer. Dental insurance companies can give inaccurate or incomplete information when an attempt is made to verify those benefits for a patient. Ultimately you are responsible for knowing your insurance, including yearly maximum and coverage. If you have questions about your benefits, please call your insurance company.

Patients are responsible for all fees incurred. If the patient's insurance company fails to provide adequate coverage for dental procedures, then the patient will be held responsible for what the insurance company fails to provide. We are doing our best to coordinate benefits with the patient's insurance company. The patient's deductible and co-pay (estimate %) is due at each visit.

I have read the above and understand the Dental Insurance Benefit Policy.
